

ARCO-S (NON-MAGNETIC TRACK SYSTEM)

ARCO-S is a slim linear LED fixture that provides smooth, uniform illumination from a non-magnetic track system. Available in multiple lengths, it can support both focused task lighting and broader ambient lighting applications. The adjustable design makes it easy to direct light toward work surfaces, displays, walls, or seating areas. Its minimalist profile integrates naturally into contemporary homes, offices, hotels, galleries, and retail spaces.
