

LINE (ACOUSTIC COLLECTION)

The Line combines a clean architectural profile with effective sound absorption and flexible color customization. Available in three sizes, each fixture is constructed with 9 mm polyester fiber and offered in 36 acoustic felt colors, allowing it to coordinate with a wide variety of interior concepts. The acoustic material is non-toxic, non-allergenic, and non-irritating, making the collection suitable for frequently occupied commercial and public environments.

With an NRC rating above 0.8 when installed with a 200 mm air gap, the Line helps reduce unwanted noise and reverberation while contributing to a quieter and more comfortable atmosphere. It is ideal for hotels, offices, public buildings, shopping malls, and other large interior spaces. The collection also offers flexible MOQ options, quality craftsmanship, a five-year warranty, and secure packaging suitable for individual stock orders, large projects, and air shipping.

MATERIAL:

0.9cm polyester fiber

WARRANTY:

5 years

MAIN FEATURES:

Excellent sound absorption and noise reduction efect
