

NOIR CUBE (CEILING LIGHTING)

NOIR CUBE is a minimalist architectural luminaire that combines clean geometry with refined lighting performance. Available in both recessed and surface-mounted configurations, its sculpted square housing features a deeply recessed light source that minimizes glare while delivering comfortable, precisely controlled illumination. The contrasting interior finish enhances visual depth and creates a sophisticated appearance, making the fixture an elegant architectural element even when switched off.

Designed for contemporary residential, hospitality, retail, and commercial interiors, VOXEL is ideal for accent lighting, corridors, galleries, reception areas, and feature walls. Its timeless cubic design integrates seamlessly into modern spaces, providing warm, focused illumination that highlights artwork, architectural details, and interior finishes with exceptional visual comfort.
