

LOVE EDGE (ACOUSTIC COLLECTION)

The LOVE EDGE combines sculptural design, warm LED illumination, and sound-absorbing performance in a distinctive decorative fixture. Its layered composition of heart-shaped and curved acoustic baffles creates a dynamic, flower-like form that adds color, texture, and visual movement to the ceiling. The integrated light source produces a warm, inviting glow that passes through the overlapping elements, creating a comfortable atmosphere and striking shadow effects.

MATERIAL:

0.9cm polyester fiber

LIGHTING:
