MORPH WAVE (ACOUSTIC WALL & CEILING PANEL)

MORPH WAVE features a gently undulating surface that introduces movement and softness to architectural interiors. Repeated panels create flowing bands, with curved contours highlighted by light and shadow. Its sound-absorbing PET felt helps control reverberation in spaces used for work, conversation, and relaxation. Combine complementary shades for a gradual color transition or use a single finish to showcase the sculpted relief. MORPH WAVE suits feature walls and ceiling compositions in offices, lounges, and hospitality settings.
