MANTA WAVE (ACOUSTIC WALL & CEILING PANEL)

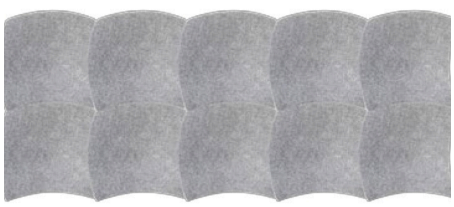

MANTA WAVE brings gentle movement to interiors with its curved edges and softly contoured surface. Its flowing silhouette creates petal-like patterns when multiple panels are arranged together. The sound-absorbing PET felt helps control reverberation while adding a soft, tactile finish. Use the panels in small decorative groups or extend the pattern across larger wall and ceiling areas. Coordinated colors create a subtle composition, while contrasting shades emphasize the curves. MANTA WAVE suits lounges, collaborative workspaces, reception areas, and hospitality settings.
