

AURAWAVE PENDANT (ACOUSTIC COLLECTION)

The AuraWave Pendant combines color, circular geometry, lighting, and acoustic performance in a versatile architectural solution. Constructed from 12 mm polyester fiber and available in a wide range of color options, its distinctive round grille design creates a strong visual feature while complementing both contemporary and traditional interiors. The acoustic material is non-toxic, non-allergenic, and non-irritating, making it suitable for frequently occupied environments.

Designed to absorb unwanted sound and reduce reverberation, the AuraWave Pendant helps create quieter, more comfortable spaces without compromising illumination or aesthetics. Its adaptable design makes it ideal for offices, hotels, lobbies, retail areas, public buildings, restaurants, and other commercial interiors where effective lighting, acoustic comfort, and visual character are equally important.

MATERIAL:

12mm polyester fiber

WARRANTY:

5 years
